QUAYLE ACTION

1. The amendment filed on August 6, 2008 has been entered.

Specification

2. The disclosure is objected to because of the following informalities:

In paragraph 0004, line 10, the recitation "photo-detector 32" is not sufficiently clear and it seems that it should read --sensor 32, 34--; in line 16, the recitation "photo-detector 33" is not sufficiently clear and it seems that it should read --sensor 33, 35--.

In the replacement paragraph for paragraph 0027 filed on November 22, 2006, line 11, it seems that --provided-- is missing before "at some point".

In the replacement paragraph for paragraph 0029 filed on September 7, 2006, line 2, "Sensors 32, 33" is not sufficiently clear and should read --Sensors 32, 34 and 33, 35--.

In paragraph 0035, line 2, "reference signal" is not sufficiently clear, and it seems that it should be changed to --synchronization signal--; in line 5, "signals" should be singular.

Appropriate correction is required.

Allowable Subject Matter

3. Claims 1-7 are allowable over the prior art of record.

Conclusion

4. This application is in condition for allowance except for the formal matters described above. Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
